Dear Dr. Example,

I wish to submit an original research article entitled "Example Article" for consideration by Journal of Example

2

I confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere.

3

In this paper, we show that X is equal to Z. This is significant because it is critical to demonstrate the impact of X and Z on Y.

4

Given the increase in X and Z globally, we believe that the findings presented in our paper will appeal to the specific scientists who subscribe to Journal of Example. Although prior research has identified a few methods that could be used in space exploration, such as X and Y, the applications developed from those findings have been cost-prohibitive and difficult to administer globally. Thus, our findings will allow your readers to understand the factors involved in identifying the onset of X and Y and develop more cost-effective procedures.

We have no conflicts of interest to disclose.

5

Please address all correspondence concerning this manuscript to me at a.example@research.edu.

Thank you for your consideration of this manuscript.

Sincerely,

Dr. Example, PhD
